

Senior QA Engineer – Web

The Company.

The Foundry is a world leading innovator of creative software across multiple industries. Founded in 1996, we are an award-winning, exciting, dynamic company. As well as being proud of our software, we believe the strong relationships with our customers allow us to develop flexible, open, problem-solving applications that span VFX, design, and more. We continue to move from strength to strength and are looking to grow our team of bright, capable, hard-working, and fun experts.

The Job

Quality Assurance at The Foundry is more than just your traditional testing role. We realise that software quality runs deeper than checking software is functional. As a QA Engineer – Web, you'll test websites and services, provide feedback on product design and implementation. You'll also qualify workflows for our websites, verify fixed bugs, design manual and automatic test cases and execute test plans to report on the overall quality and performance. In this instance, you'll need to have performed a similar role previously, and have awareness of best practice, the tools needed to execute it, and the common pitfalls along the way.

We're looking for a bright, experienced individual who thrives when solving tough problems in a dynamic environment.

Required Skills:

- Experience in website testing, services deployment, and analytics.
- QA domain, bug tracking and Test Management System experience
- Solid understanding of web technologies and current industry developments
- Knowledge of web automated testing frameworks e.g. Selenium, Apache Bench
- Familiar with web security, payment implementations and web localization
- Analytic problem solving, fault finding, and troubleshooting
- Well organized with the ability to prioritize tasks

Applying

If you meet the criteria, are eligible to work and are interested, please send your covering letter, CV, salary expectations and notice period to jobs@thefoundry.co.uk with the subject "QA Engineer - Web".

More About Us.

The Foundry was established in 1996. It is now the fastest-growing company in its field today, and is internationally renowned for its collaborative and open approach to software development.

Led by CEO Bill Collis and a management team that still includes the original founders, The Foundry is backed by The Carlyle Group with a substantial portion still owned by the staff.

The Foundry develops award-winning computer graphics and visual effects (VFX) software used globally by leading artists, designers and creative professionals. The portfolio lets users create inspiring and technical high-end visuals across a wide range of industries including product and concept design, marketing & advertising, media & entertainment and game development.

In September 2012, The Foundry added MODO, a 3D software package that combines modeling, painting, animation and rendering, to its portfolio. In addition to MODO, the product line includes NUKE (industry standard compositing), HIERO (shot conform and review), MARI (3D digital painting), KATANA (a look development and lighting framework), FLIX (collaborative visual story development), OCULA (a stereoscopic correction toolset) as well as a range of plug-ins.

In the design world, MODO enables the creation of a huge variety of things from products and advertising material to games assets, animation projects and beyond.

All of the company's products, including MODO, are used to create breathtaking visual effects sequences on a wide range of features, television projects and commercials. High profile examples include Gravity, Pacific Rim, World War Z, The Hobbit and the 2013 Oscar® winner, Life of Pi (Best Visual Effects). In television examples include Once Upon A Time, Falling Skies, Boardwalk Empire and Game of Thrones.

Clients include major feature film studios and post production houses such as Pixar, ILM, Double Negative, The Moving Picture Company, Walt Disney Animation, Weta Digital, Framestore and Sony Pictures Imageworks.

In 2013, The Foundry made the Sunday Times Tech Track 100 for the fourth consecutive year, ranking in 92nd position. This year, the company has also been shortlisted for categories in the UK Tech Awards and the National Business Awards. The Foundry's CEO Bill Collis was recognized as the UK Technology winner for the Ernst & Young Entrepreneur of the Year award.
